Inquiry and Research - Question No. 3

A certain king once fell ill and the doctor declared that only a sudden fright would restore him to health, but the king was not a man for anyone to play tricks on, except his fool.

One day, when the fool was with him in his boat, he cleverly pushed the king into the water. Help had already been arranged and the king was drawn ashore and put to bed. The fright, the bath and the rest in bed cured the diseased king.

The king wanted to frighten the fool for his act so he told him that he would be put to death. He directed the executioner privately not to use the axe but to let fall a single drop of water on the foolâ€™s neck.

Amidst shouts and laughter, the fool was asked to rise and thank the king for his kindness.

But the fool never moved, he was dead- killed by the masterâ€™s joke.

Who alone could afford to play tricks on the king?

Answer Choices:

1) the courtiers

2) the prince

3) the fool

4) the doctor

==========

Using the Lumos Study Programs, parents and educators can reinforce the classroom learning experience for children and help them succeed at school and on the standardized tests. Lumos books, dvds, eLearning and tutoring are used by leading schools, libraries and thousands of parents to supplement classroom learning and improve student achievement on the standardized tests. Lumos industry leading authoring platform, Lumos Quill, provides teachers and curriculum leads tools to rapidly create custom interactive lessons and assessments that supplement classroom learning. It helps educators collaboratively capture and centralize lesson plans and assessments and make them available to students in both print and eLearning format. It allows them to identify students strengths and weakness, develop remedial programs and extend classroom learning.
