Article published on December 27th 2011 | K-12 Education

Being a part of the 21st century, you will find yourself an ignorant one if you donâ€™t know the way to access to Internet. Web has become the strongest tool these days, be it for booking train or flight tickets to order pizzas and even to admit children in schools online. Unlike the schools of earlier days, the schools of the present days focus more on Internet and teach the students Internet education in schools only.

Internet has made it easier for the students to find out anything or clear any kind of doubts within a fraction of seconds. Though, it has negative effects also. Students often take the help of Internet for using shortcut methods to collect their study materials. They are also found to be more interested in using social networking sites.

There are some principles and guidelines for the usage of Internet at Schools:

The purpose of this guideline ensures that

â€¢ Schools are well-versed about the applicability of ethics and guidelines for Internet handling

â€¢ Users of Internet are familiar with the security menaces of the Web.

The scope of these guidelines is applicable for all students in schools who have access to the Internet.

The use of the Internet by the students is important in regard to support high quality teaching and learning process. It has been proved that the advent of Internet has helped the students immensely. Now students can easily find any material even if it is not available in their school library or in the place that they live. Through the E-books, they can even read the books of foreign authors. It is just that, a little attention should be given by the teachers to the students to keep a track of what they are doing. Internet also helps the students and teachers to exchange materials through e-mails.

These days, different websites provide contents that are related and fruitful for the students. In fact, teachers also take help of the Internet to teach the children, because they get the study notes easily from the Internet as compared to the books that take long hours to find a single paragraph. Though it becomes a threat for the parents whose children take the help for almost every work, but in schools the risk is less because the harmful sites in schools remain blocked mostly.

If you are a parent and looking for any school that gives almost all types important facilities such as Internet in library to the students then do not be worried. Onlineschooladmissions is a site that introduces you to a number of schools across the country that also help you to get a school for your child that has all the latest equipments to give exposure to your child. An online admission agent, we do everything for you right from giving you a choice of schools in India through our online school directory to scheduling an interview for your child from a number of schools. Admissions couldnâ€™t get easier, but then, thatâ€™s because OSA understands parental woes that crop up during admission and is dedicated to ease the load off your shoulders.
