Planning Children Events or Party with Wristbands by Kittie Pitts

Article published on May 9th 2012 | Kid

Whether you are hosting a corporate party, a charity dinner or fundraiser with hired entertainment, Tyvek wristbands come to your aid. This article contains the top six ways that Tyvek wristbands contribute to a successful event.

1. Tyvek wristbands are economical. Costing a mere $.04 to $.05 per wristband, you really can't go wrong. Made of TyvekÂ®â€”a synthetic fiber material produced by DuPontâ€”these wristbands are ideal fo short-term use. Tyvek wristbands are water-resistant with a strong adhesive closure and â€œtamper cuts" that cause it to shred if someone tries to remove it. They are an ideal choice for parties or events.

2. Tyvek wristbands help quickly identify authorized guests. Since Tyvek wristbands come in a wide range of highly visible, bright colors, they make it easy for security and staff to identify authorized guests. Oftentimes, events take place in hotels or other public facilities. Without Tyvek wristbands, anyone could wander into your event uninvited. Tyvek wristbands assist staff to eliminate any possible party crashers from sneaking in and mooching food, drinks or party favors.

3. Tyvek wristbands assist with age identification. If you will be serving alcohol at your event, Tyvek wristbands can speed along service and increase sales or donations. Security staff can check IDs just once upon entry into the event, and then apply a non-transferable wristband of a designated color to identify guests who are of legal age to drink alcohol. Anyone under age 21 wears a different colored Tyvek wristband. Servers can quickly distinguish between guests of legal drinking age and those not of legal drinking age. This eliminates the task of rechecking IDs each time someone comes up to the bar to order a drinkâ€”eliminating wait time for other guests in line. Same is true if you have wait staff assigned to tables. They can move from table to table more efficiently because a step in the order process is removed. By saving time, your guests are likely to spend or donate more money.

4. Tyvek wristbands distinguish different groups of people from one another. The bright colors of Tyvek wristbands also help staff to easily distinguish between guests, other staff and entertainment. Guests typically only have access to the main event room. If staff see a guest who appears lost or has wondered inadvertently into a staff-only area, staff can politely steer them back into the right direction. If your event does have entertainment, performers and their set-up crew can be given a uniquely colored Tyvek wristband so they can freely walk about backstage to set up. Staff can easily spot them and offer assistance. Maybe you are hosting a charity event and people who donated $500 or more are VIPs who are granted back backstage passes to meet the performers. These guests can also have their own uniquely colored Tyvek wristband.

5. Tyvek wristbands help prevent counterfeiters. You can custom imprint logos or taglines onto Tyvek wristbands to prevent counterfeiters from crashing your event. You can really make Tyvek wristbands unique by adding a fun design to an already brightly colored wristband. When people catch wind of a cool event, they might try crashing it by purchasing cheap wristbands at a party store. Imposters are easily spotted when you use custom printed Tyvek wristbands.

6. Tyvek wristbands promote your business or charity. Custom printed Tyvek wristbands are also a great marketing tool. You can promote your business or charity by imprinting its logo, tagline and the date of the event. You might even want to include a website URL or, better yet, QR code. If you'd like to cover costs or maybe even make a profit, you can sell advertising space to a sponsor and have their logo imprinted on the Tyvek wristband. Guests will be wearing the wristbands all

night. If they have a great time, they might even keep wearing their Tyvek wristband for several days after the event is over. There's no better way to advertise than word of mouth and Tyvek wristbands are a sure-fire conversation starter.

Consider Tyvek wristbands to streamline your next event, while also adding a bit of flair. The high visibility of Tyvek wristbands can assist you in keeping track of guests, while also strengthening security. As an added bonus, you can promote your organization or charity, too. It's really hard to beat the functionality and fun that Tyvek wristbands have to offer.
