Article published on March 21st 2012 | Loans

Not owning a home often reduces your chances of getting a suitable financial aid to meet your needs. The only way to explain this is that money lenders do not loan out money unless you have a valuable asset, like a house to pledge against the loans. However, short term loans are much less demanding in terms of collateral. Therefore, we have completely eliminated any collateral on small amounts that you may borrow to meet immediate expenses. Whether you have expenses extending your monthly budget or even have to plan a well deserved holiday, we offer tenant loans that do not make it mandatory to have a house of your own.

Loans for bad credit allow non home owners to borrow amounts up to Â£1500. Since these loans are short term, one gets 15-30 days to repay these loans. Not only are these loans collateral free, they are also credit check free. This means you do not have to waste your valuable time in getting your credit history checked as we offer loans to even those who have arrears, delayed payments, missed payments and even bankruptcy listed in their credit history.

Before you apply for tenant loans, consider these questions:

â€¢ Are you 18 years of age or older?

â€¢ Do you have an active checking account?

â€¢ Do you have a regular job that gives you a fixed income every month?

â€¢ Are you a permanent resident of the United Kingdom?

If your answer to these questions is â€œyesâ€• then log on to our website and fill in the simple application form. Once we receive your application form, we will begin to process your request. Depending on your requirement and current financial situation, we will find you deals that will help you repay your loan easily. Within 24 hours of approval, your Tenant loan will be credited to your account. So, if you are looking for a suitable financial aid, apply with Loans for bad credit today!
