The interest rate for a car loan can differ by [Amber Dorsch](#)

Article published on January 24th 2012 | [Loans](#)

There is no doubt that different places have different interest rate on car loans and there are few places where they are high while on the other side they are lower in some of the places. An example of such a place is Adelaide. The car finance Adelaide city offer to the citizens are not just easy to get but also easy to pay because of very lesser interest rate. Generally there are lots of reasons that why interest rate varies in different places and among them the bad credit car finance or loan is the leading reasons. In addition to this different countries have different policies that decide interest on car loans. It is not always essential that the interest rate is totally different on all the loans at different locations for a car but there are few lines which probably have the same interest rate on car loans that are higher and such loans are business car loans or personal car loan.

When someone talks about car loan financing the first thing that came in the mind of that person is which place or agency offer best interest rate and most probably he/she starts looking for cheapest car loans. People often ask questions that does the interest rate differ from getting loan for a new car or an old car and the answer to this question is the new car loans have higher interest than old car loans at the majority of places. It is always better to make a search on the internet for the motor vehicle finance companies to get the best interest rate around you. Generally loans for a car are of lots of types and at different locations you may not always get a specific loan for a car that you desire. Taking advice on car loan finance probably give some idea about the interest rate you will get at different locations. A car finance company can help you in this matter. Getting desire finance for the car is possible at majority of loan providers but this most of the time depends upon the location. Rather than locate the interest rate for car loans may also differ in the type of car you are getting.
