Advisory business services and the risk management solutions are signed Sodali by Adryana Bygger

Article published on April 20th 2012 | Management

Sodali is an independent consultancy, part of the GMW Group, a global consultancy providing advice and services to listed companies in several continental. Sodali takes care of relations between shareholders and companies, affording several business services like corporate governance consulting, capital restructurings, research on strategic issues, and its main goal is to help to align the interests of corporate boards, managers, owners and investors for creation to value in long-term. Sodali, analyzing a companyâ€™s governance profile with external benchmarks, can help executive managers of listed companies understand who owns their shares and how their governance policies, business goals and performance, are perceived by their investors.

Sodali has a team composed by professionals that come from several corporates and from investor communities with a long-standing experience and specific skills about advisory business services.

Thanks to contacts with institutional investors, at research to data on share ownership, to transaction skills and thanks to an global network of advisors and business executives, Sodali provides a thorough assessment of sensitive corporate issues such as independence, diversity, compensation, succession planning and communication. Its reports allow to deal constructively with issues of board structure, the function of the committee, governance policies. The informations provided to companies by Sodali are important to their risk management solutions, due diligence, for the investor relations and for the strategic planning.

Any company needs risk management solutions, therefore choose Sodali consultants is a good solution: Sodali experience is global, though its headquartered is european, it also cooperates with numerous listed companies in continental Europe, Latin America, Asia and within other emerging markets.
