ISO Certification is Beneficial for Your Business: by Isoconsultantgmg

Article published on June 6th 2012 | Management

Taking risk with precaution is always a smart choice. Business is a risk and having ISO certification is an advantage for the product, shareholders and customers and for the businessperson too in establishing the system and making vibrant organization. ISO standards are internationally known set of requirements for any administration that defines processes and control set which helps you to meet all stakeholders, legal requirements further reducing risk in your business for Quality, Environment and OHSAS issues.

Global Manager Group helps you in providing the ISO certification as per your needs and requirements. Following are the certificates provided by us:

â€¢ ISO 14001: Prevention of pollution by industry and environment management system

â€¢ ISO 17025: General needs for the capability of testing and laboratory standardization

â€¢ ISO 9001: Quality management system

â€¢ ISO 50001: Energy management system

â€¢ ISO 27001 Certification: Information technology, security technique and management system

â€¢ ISO 22000: Food safety management system

â€¢ OHSAS 18001: Occupational, Health and Safety management system

Global Manager Group is here to assist you for acquiring certifications according to your business requirements. You can simply come to us and give in all the required details about your company and for the rest you can rely on us. Our best on line options are providing on line help by arranging webinars, providing training through our virtual university and providing ready to use documents for your organization after making online micro level survey of your organization with our established Knowledge based outsourcing system for establishing the system for any type of the organization in the world.

If you are looking for improvement in the way of managing and operating your organisation, then go for ISO 9001 certification. Implementing it at all sectors of your organization can earn you good investment returns.

Global Manager Group also provides you with ISO 14001 training in which we create a basic awareness among your employees about environment management systems to meet the standards of ISO 14001.

Any organisation providing services or products needs to look after an effective system for quality management and is the basic aim of ISO 9001 program. Global Manager Group will assist you for acquiring ISO 9001 certification. We also provide ISO 9001 audit services for you to implement effective quality management system.

The main aim of ISO auditor training is all about conveying the skills and knowledge and we provide online certified internal auditor training for ISO 9001, ISo 14001 and OHSAS 18001 which are essential to conduct internal audits in an organisation. Thus, if anyone desires to conduct audits

internally in an organisation, then that person needs to pass the ISO auditor training. Global Manager Group takes pride in offering excellent ISO auditor training to meet these requirements.

Six Sigma

To achieve improvement in quality of the organization, six sigma certification must be obtained. Global Manager Group helps you to identify and alter the mistakes by reducing the inconsistency that might occur in the industry procedures with its six sigma certification. Six sigma helps in the management and output of quality for a business organisation. In fact, dedication of employees at every level towards the six sigma system is of utmost importance. Global Manager Group provides six sigma certification assuring enhancement in quality and growth of the business.

Global Manager Group is not only a renowned ISO certificate provider in UK, but it also spreads its services in USA, South Africa, London, Canada, Saudi Arabia, Qatar, UAE, Australia and other parts of the world.

Thus, businesses in need of ISO 14001, ISO 9001, ISO 27001, ISO 17025, ISO 22000, ISO 50001 certifications as well as related ISO audit training and six sigma certifications can turn to Global Manager Group, as it suffices to all your ISO certifications, training and auditing needs successfully.
