Article published on March 14th 2012 | Management

So if you are interested in leasing Ford Transit company vehicles then consider the points below from Yellow Hire, before you come to your final decision.

1) Firstly, leasing can be a lot cheaper. A leasing company can help to save you a lot of money and not just when it comes to leasing costs. If you hire then your company can also save a lot of money on maintenance and repairs, as leasing companies will carry out their own checks on the van. This could save you thousands, if not hundreds of thousands, depending on the size of your fleet.

2) Leasing offers a wide variety of choices. Leasing companies can offer you a diverse selection of Ford Transit vans with add-ons such as decent storage space and side doors and any other features that you might need to consider. As this includes most of the more popular commercial vans then you are sure to find the right type of Ford Transit van for your business.

3) You could drive a brand new Ford Transit van. A van hire facility gives you the opportunity to drive a luxury vehicle, which otherwise you may not be able to consider driving. When you rent a Ford Transit van, you are only paying for a part of it; so you end up saving a good sum of money. This also enables you to create a good impression with your clients by leasing a stylish and sophisticated vehicle instead of a van that looks pre-owned.

4) Easy payment options. Leasing companies have a wide range of payment options that can suit your company, making the entire process easy to manage. This gives you the opportunity to take out a Ford Transit van lease for a short or long leasing term and decide your own payment plan. As well, monthly payments can be reduced even further through a deferred purchase form of van leasing named lease purchase. Under lease purchase, monthly payments are kept artificially low and in return the business agrees to make a final 'balloon' payment at the conclusion of your lease period. This can save your company a lot of money.

5) Flexibility. If you hire then you can change vehicles whenever you feel like it, perhaps deciding to take out a small van for a year and then taking out a new Van Hire Bristol deal, perhaps from Yellow Hire, the year after. This is ideal if your company needs are likely to change in the coming year, perhaps if your company is on the cusp of an expansion.

6) Leasing companies have a brilliant service team. Leasing companies come with dedicated service teams that will accommodate your specific requests, ensuring that you get the best form of service and making sure that any problems are fixed immediately. This all means that if any problems should arise, you'll be in good hands.

Now that you know some of the benefits of leasing a commercial Ford Transit vehicle, all that is left to do is shop around and see if you can find the right van and leasing company for your particular needs.
