Since past several years, whole world has witnessed several people incorporating Midas touch in their hands. Such people with the help of their Midas touch can easily convert several unattractive and unorganized things or items in to attractive ones. One such personality is known as Bebo Kobo. Bebo Kobo is recognized as one of the renowned business tycoons of London.

This great personality has obtained massive success in almost every sector of business. These include success in the sector of fashion business in Israel and London, real-estate business in London and in United States of America. Other than this, Bebo Kobo has obtained huge success in the sector of yachts business. In fact, it is due to the magical touch of Bebo Kobo only, we have witnessed the renovation of several luxurious yachts from several scrapped and wrecked ships get perished in to the sea.

Few years ago, when wars were prevalent in most of the parts of the world, especially among the developed countries of United Kingdom and United States, marine forces make the utilization of large-sized warships for massive destruction of lives as well as assets. After the completion of war, all the warships get dumped in to the seas and oceans in straightforward manner. As a result of this, such warships become highly oxidized and easily get converted in to scarp, which leave behind fuel and several toxic materials over the entire oceans as well as seas.

The oxidization of warships and their conversion in to scraps may result in causing severe affect to marine life. Thus, in order to avoid pollution of seas and oceans as well as to save the marine life, Bebo Kobo has come up with a new concept of converting old and damaged warships in to several luxurious yachts.

Now, if you go through the history related with the invention of luxurious yachts, you may found the names of several other personalities having the ideas of conversion of wrecked ships in to various attractive yachts. However, despite of this fact, Bebo Kobo is deserved to receive highest credit regarding the development of luxurious yachts across the world.

This is because; Bebo Kobo has invented a new idea of conversion of several old tankers and warships in to attractive yachts to be used for both commercial and personal purpose. Even, luxurious yachts have become center of attraction for London Olympics 2012, as several renowned personalities across the world, such as Frank Lowy and Canary Wharf have visited to see London Olympics by travelling through one of the popular yachts named Ilona.
