At Wireless Solutions we have seen it all “ cracked screens, broken antennas, cracked or missing faceplates, water damaged phones, locked cell phones, broken LCD displays, broken or sticky keypads, broken flip phones, lost contact lists, missing data, and much more!! NO job is Too Big or Too Small. Cell phone insurance does not cover water damage, and most insurance companies charge \$110 for a replacement refurbished phone. If your phone is not under warranty the carriers charge the full retail price. That is not the case at WIRELESS SOLUTIONS. We have been fixing phones for the past 10 years and our technicians are very knowledgeable and well-equipped with all the tools and Original Parts. We fix all cell phone problems and cover all manufacturers. We warranty our work!!!
