Handy phones-Easy to Carry by Paul Smith

Article published on May 2nd 2012 | Mobile Phones

All mobile phones have a number of features in common, but manufacturers also try to differentiate their own products by implementing additional functions to make them more attractive to consumers. This has led to great innovation in mobile phone development over the past 20 years.Low-end mobile phones are often referred to as feature phones, and offer basic telephony. Handsets with more advanced computing ability through the use of native software applications became known as smartphones.

Nokia phone is the world's leading mobile phone supplier- a leading supplier and manufacturer of mobile and fixed telecom networks including related customer services. Most Popular sets are: Nokia 1100, Nokia 3310, Nokia 5230, Nokia Xpress Music, Nokia N 70, Nokia E-72 and N 900 and many more. Nokia mobile phones have an edge over other mobile phones in terms of time. Indian consumers have been using Nokia phones for the last 15 years and they have appreciated its robustness as compared to other phones. In addition to the look and feature, Nokia mobile has never made a big hole in the pockets of people. The flexible memory feature in the Nokia mobile allows users to avail multiple applications.

Nokia as we all know is a popular brand and many Indian users might have used Nokia mobiles at some point of time. Nokia phones usually come with theproprietary Symbian OS but the latest releases are now featuring the windows phone 7.5. Nokia phones are reliable and usually have a good battery life.
