Motorola, the coveted brand in the mobile industry has also left behind when it comes to android phones. Buyers can avail various Android Phones from Motorola like Motorola RAZR MAXX, Motorola DEFY XT535 and Motorola Defy Mini XT320, to name a few. Although Motorola has released its android phones very late in the market, it is still doing good business throughout the globe. Including all the sophisticated attributes of an android phone, Motorola has been able to give a stand to its competitors.

Motorola RAZR MAXX phones are powered by a 16 GB storage facility and 1GB RAM. These phones swiftly run on Android OS, v2.3.6 (Gingerbread), which is upgradable to v4.0. Equipped with Corning Gorilla Glass protection features, these phones will certainly catch the attention of the buyers from different parts of the globe. Although, these phones are simple in terms of look, these are equipped with all the updated and complex functions. Motorola RAZR MAXX is outfitted with Super AMOLED Advanced capacitive touchscreen with 16M colors. The camera of this phone is 8 MP, 3264x2448 pixels with autofocus and LED flash.

Motorola DEFY XT535 can grab a broad market owing to its advanced features like Wi-Fi 802.11 b/g/n, Photo viewer/editor and Voice memo/dial/commands. There is every possibility that low end users will definitely admire the efforts of Motorola for offering such a classic multi-tasking device. With a sporty look, Motorola DEFY XT535 is also dust and water proof up to 1m for 30 minutes. To provide convenience for the user to hold the handset for a long period, these phones are featured with the handy design and light weight. Moreover, these phones are also appreciated for their features such as Geo-tagging, image stabilization and microUSB v2.0.

Motorola Defy Mini XT320 enables web browsing capitalizing on its updated applications such as like Google Search, Gmail, Google Talk and YouTube. These phones also provide the option to view personal and official documents. Besides, mails can also be collected in one inbox and thereby managing the userâ€™s emails without any hassles. As 3G facilities are available on Motorola Defy Mini XT320, it also allow the privileges of video calling. With high speed data transfer features, these handsets are facilitated with WiFi, GPRS, EDGE, Bluetooth and USB for Internet browsing. The buyers can also messaging with advanced messaging applications like SMS (threaded view), MMS, Email, Push Email and IM.

The camera of these latest android phones from Motorola is effective in capturing pictures with utmost clarity even in low light condition. Video recording facility can also be enjoyed by the user on these android phones. Keeping in view the entertainment factor, these phones also provided with stereo FM radio with RDS and MP3/MP4 player. It is capable of storing hundred of audio and video files in its large memory, which is up to 32GB. The best thing about Motorola Android phones is that it suits the choices of everyone whether he is a working professional, student, housewife or a businessman. In order to meet the budgetary requirements of the clients, Motorola smart phones are available at reasonable prices.
