Nokia has been providing premium quality mobile handsets to the consumers since long time. The company has been able to gain a coveted position in the market by offering user-friendly, cost-effective and reliable phones. Recently, Nokia has been creating vibes in the market by launching many fabulous handsets such as the Asha Series, Lumia Series and 808 Pureview. All the handsets come with various innovative features. Out of these phones, Nokia 808 Pureview is the highly talked one among the consumers.

The main USP of 808 PureView is the presence of 41 Mega Pixels Camera. It is indeed a very rare and excellent feature of these phones. You will hardly find any phone with such a huge mega pixel camera. Out of 41 MP, you will find 38 MP to be effective with 7152 x 5368 pixels. In addition, the camera handset also features Carl Zeiss optics, autofocus and Xenon flash. Other attributes of these camera phones include 1/1.2" sensor size, ND filter, up to 4x lossless digital zoom, geo-tagging and face detection. Besides, the handset is packed with a AMOLED capacitive touchscreen with 16M colors. The display size is 4.0 inches and 360 x 640 pixels with multi-touch options. Further, the display of this gadget is protected by Corning Gorilla Glass. The phone also comes with a whopping internal memory of 16 GB storage, 1 GB ROM and 512 MB RAM. Additionally, the phone also supports expandable microSD memory up to 32 GB. The phone is powered by a 1.3 GHz ARM 11 processor and runs on Nokia Belle Operating System. You can also enjoy 30fps video recording as these are featured with VGA front camera. On the connectivity front, you will find all the advanced options such as GPS, GPRS, EDGE, WLAN, Bluetooth, NFC and USB. Having the support of Li-Ion 1400 mAh (BV-4D) battery, this phone provides the user to experience a decent talk-time of 11 h (2G) and up to 6 h 50 min (3G). Apart from talk-time, you can enjoy stand-by up to 465 h (2G) and up to 540 h (3G). Moreover, the phone is equipped with 3.5mm audio jack and supports Dolby headphone enhancement for providing better quality sound.

Looking at the features and other sophisticated attributes of the 808 PureView, it will not be wrong that this is one of the best creations from Nokia till date. There is no denying that this mobile handset has given stiff competition to the other brands in the market. After its release, the phone has received warm response from the consumers belong to the varied nooks and corners of the world. The handset has got a strong stand from Samsung Galaxy S3, as both the phones have been released in India almost at the same time. However, this gadget has been able to create a sophisticated niche among its consumers. It can also be expected that this Nokia Mobile will do more wonderful business for some time unless and until Nokia comes with another amazing handset once again.
