Nokia has been in the field of mobile phone for good many years and with great reputation. The annual turnover of this Finnish company through manufacturing and marketing mobile phones under its brand is sure to make any other player of the same field simply envious. Nokia is famous for its journey from low-cost mobile phones to high-end Smartphones through any kind of weather, fair and unfriendly. Popularity of the Nokia Lumia 800 Contracts in the market of Smartphones is an index of Nokia's greater achievement when it has come again with the debutant Windows phone.

Quite believably, Nokia Lumia 800 is the handset with number of exciting features. Nokia has shifted from its traditional Symbian operating system to the recent operating system of Windows 7.5 Mango. The operating system has now the capacity to offer applications of as many as 40000, because it has been associated with Microsoft. The handset is powered by a single-core 1.4GHz processor, but speed is not a problem.

The consumers will get a 3.7 inches AMOLED capacitive touchscreen which can provide resolution of 480—800 pixels. Thanks to the cutting-edge technology behind the production and the great resolution of the super-soft screen, display of the handset is so brilliant that the users are really happy. Besides this, the set has been armed with the internal storage capacity of 16GB which is to mean that additional memory card is not necessary at all.

The users are assured with brilliant provisions for connectivity through 3G, GPRS, Wi-Fi, Bluetooth, EDGE, WLAN and all. Hence one feels it comfortable to have an access to Email, SMS, MMS, IM and to PowerPoint, Excel and Words. The journey through the fabulous world of the web has been made easier and one can move to the social network site like MySpace, Twitter or Facebook.

Batter backup is satisfactory and there is no need to be worried of it, usually. The users will be stunned in having the camera with 8 Mega Pixel that can produce striking images. The double-LED flash and auto focus facility is worth-mentioning. The camera can record 720p videos at 30 frames in every second.

Nokia Lumia 800 Contracts are available from the great players of the market who provide network services with established reputation. O2, Virgin, Orange, T-Mobile and others are ready in the market with several deals. Consumers will get offers like half-price line rental, mobile data allowance for 3 months, gift cards, Toys R Us gift card, free PlayStation and more.
