Pinless Calling Cards Services in India by Anjali Dsouza

Article published on April 30th 2012 | Mobile Phones

Nowadays the number of people going abroad has increased. Travelling to foreign countries has become easier and more convenient. In the earlier days, only few people travelled by flights, but nowadays the number of people using air travel has increased. Very often these days, students are going abroad for higher studies. When they go abroad, they often make promises to keep in touch regularly by calling family and friends. Making international calls need not be a cumbersome or expensive procedure anymore, so staying in touch is easier than ever before.

There are many phone cards which have been introduced offering low and affordable rates for making international calls. You can even purchase a pinless phone card for hassle free calling. Phone cards come with a specific talk time and once this talk time is over, you can recharge it or it gets automatically recharged. For using calling cards, you need to dial an access number followed by a PIN and then your destination number. The call then automatically connects. The convenience with a pinless calling service is that you need not dial the long digit PIN after the access number. You can register the numbers which you frequently call and whenever you want to call up these numbers, you can just dial the number after the access number without entering your PIN number.

Phone cards work out as a cheaper alternative than the traditional calling method. Especially while making international calls, phone cards can help you to save a lot of money. Many people find that they have more savings at the end of every month when they use phone cards. You can find calling cards for calling different countries. You can call so many places like UK, USA, India, etc using calling cards. The rates while using calling cards remain same anytime of the day or night.

Nowadays, many Indian students are going abroad for higher studies. The education system is different abroad and students gain more exposure when they go to study in a foreign country. They are exposed to a new culture and studying abroad also adds value to your CV. Students generally have a low budget as they are not yet earning. Since, they are still studying and are not yet having full fledged careers, students who go abroad try to spend less money. Phone cards are a great and cheap way for students to remain in touch with people in their home country. pinless India calling cards are an effective and convenient way to make calls to places in India. So, whether you are an international student or you have gone abroad for some official work, no more reasons to make excuses for not keeping in touch. With the convenience of pinless phone card and other calling card benefits available, you can enjoy talking to your close ones for long hours at very affordable rates.
