Samsung Galaxy Contract: Amazing Handset with Good Camera Quality by Oliver Batham

Article published on January 10th 2012 | Mobile Phones

Do you want to take a good-looking and attractive features handset? Then donâ€™t be panic because Samsung galaxy contract is available in the market which has got attractive features, with smart camera, multimedia and so on. This amazing handset has got latest sales figures generated by this powerhouse of a handset. With these figures, it has been made-known which is dual-core phone quickly became one of the most desired mobiles the world has ever seen. Preceding sales figures of the Samsung Galaxy S2 did not fail to impress many costumers. In just 55 days of being obtainable in the market, 3 million units have already been sold on an international scale. This shattered the sales evidence of its forerunner the Galaxy S. Samsung's current flagship hit the 3 million mark in 30 days less contrasted to its predecessor.

There are a number of reasons why the Samsung Galaxy S2 is one of the most highly desired smart phones in the market. Samsung galaxy contract has got 4.3 inch Super AMOLED Plus display which permits users to enjoy more from their multi-media and more room for their touch screen needs. It is launched with a dual-core 1.2 GHz ARM Cortex-A9 processor Exynos chipset coupled with 1 GB of RAM under the hood. This provides incomparable processing power not a lot of smart phones in the market could rival. Samsung galaxy contract has launched with an 8 mega pixel camera which can record videos on 1080p. The last good quality of this handset is that it is hard to imagine which all of this powerful hardware is crammed into an 8.5 mm slim handset.

The Samsung Galaxy 3D has launched in the autumn of 2011 as looks like it will position itself at the premium end of the line up along with the S2. It has got 4.3 inch screen with a resolution of 480 x 800 pixels. The understandable highlight on this model is its 3D abilities and the screen can use stereoscopic technology to able users to view three-dimensional images without the need for glasses. This handset has got 3D screen, which is accompanied by some excellent multimedia features. It permit the users to record their own video or capture photographs.
