Samsung Galaxy Tab in India

by Jameskenrich

Article published on January 10th 2012 | Mobile Phones

Samsung galaxy tab has been the most popular pick among the series of mobile models in the market. There are a number of uniquely design Samsung tablet models which are set rich with a list of stupendous features. These tablets can give you rich and cinematic media with the exceptional support of 1024 x 600 resolution for PC-like web-browsing.

Not to doubt is its bright colours and clear pictures quality that has been enhanced with TFT technology. The brilliant tablet has a wide and clear display that displays more sharply making its absolute visible. Not to miss is the core feature if it being ultra portable having smart and thin body which can make it slide into your pocket without making is big, bulgy or popping. The Samsung tablets are granted with up to an average of 13 hours of continuous usage time.

Samsung P1000 Galaxy Tab is the new surprise featured in the series of Samsung Galaxy tab. The next key feature of this exceptional Galaxy Tab is its video chat and photos easy wherever where you are going to be supported by its front-facing 1.3 megapixel camera and camcorder for video chat. The improvement in technology and its related upgradation can be seen with its one-on-one video chat over Wi-Fi.

Samsung's Media Hub also brings forth for you a list of highly functional and all-star entertainment applications. It has been made possible due to its association with top studios that gives you access to your favourite movies and TV shows. The tablets are capable enough to store the downloads to your account so that these do not get lost along side facilitating the users to share the same with up to 5 Media Hub-enabled devices per account. Apart from some updated models, another important and widely demanded model is Samsung Galaxy Tab 750 that has set the market on fire.

You will fall in love with these tables after going through their social hub, download networking tools and fast access features that give you an immediate switch to the social networking sites like FacebookÂ®, Twitterâ„¢ and MySpaceâ„¢. This has been possible as the tablet uses SWYPEÂ® technology to text with friends and family in a whole new way. You can keep a complete record in your inbox that compiles all your work and personal emails, calendar events and more. Last but not the least is All share which the wirelessly stream digital content between DLNA certifiedÂ® devices.
