Calgary Wedding Photographer Sarah Pukin Photography Packages by [Sarah Pukin](#)

Article published on December 27th 2011 | [Photography](#)

My personal approach to wedding photography is modern, edgy and to tell your amazing story. In saying this I combine my experiences in high fashion & journalism to create unique imagery that's personalized to capture the connection each couple has.

Since every client is different I think it is important to meet and discuss the vision, needs and wants.

All of my packages include a slide show set to music of your choice, a private online website gallery of your images to share with your friends and family, a digital DVD of your photos, printing rights for you to print at your own desire, unlimited exposures to choose from, & unlimited locations to shoot your day. Some collections include Albums & Engagement sessions.

I highly recommend booking an engagement session. A. It's a blast to walk around with your partner and have images that capture who you are together. B. The attention and camera are focused on you, it's your time to shine - You will feel completely at ease. These sessions also allow us to get to know each other - after all we will be spending a full day together. I really get the essence of who you are together and it allows me to see how you move and flow so on your wedding day I might suggest different shots that will work best for you and your partner.

I shoot both locally and internationally.

For proofs you have 2 weeks to make your final choices from your proofs - after that your proof gallery will remain online for 1 month incase you feel like ordering more photos - after 30 days a additional charge will be applied to keep your session online.

I also apply artistic and basic effects to my photos (not always depending on the photo). All photos are retouched for colour and clarity and key images are edited artistically. Formals are typically all artistically edited as they are fine art pieces and have more style. You will be provided with a copy of the basic edited photos and the artistic edited photos so you have the choice.

Please contact me for a consultation to go over your specific needs.

Albums are custom designed by me to create a story book of your wedding day.

When you select your photographer it's important to remember that a professional photographer is more than someone who takes pictures. They capture your memories & tell your individual story that lasts a lifetime. You are investing in photographic art. Each photographer has a different investment to reflect what they feel is appropriate for the type of work they provide you with in the end. I say let the work speak for itself. It's better to make a decision based on the work then looking at the price tag.

Please note Sarah is only available for a limited number of Weddings each year
