Photo canvas prints by Andrew Bourke

Article published on November 30th 2011 | Photography

What would make a good canvas print for hanging up on a wall? I really would suggest starting with something that is a little eye catching and something that has a main focus, Iâ€™m sure many photographers will let you how to take pictures and in what sort of lighting and so on but as long as you have the main thing you want printed somewhere in the middle with some background then thatâ€™s perfect, this way you can have some image left for the wrap on the canvas photo print so that you donâ€™t lose any important parts of the image.

Canvas printing is a very unique way to show off your favourite photos in style, lots of people seem to be getting a canvas print up on their walls these days and the numbers seem to be growing and growing, I once through that you could only have artwork printed on canvas but I was wrong, now you can have your own photos printed on canvas to, wow yes I think its amazing and sometimes the outcome can look even better on canvas than your original photo did to begin with, I think itâ€™s more down to printing techniques and the large format printers that are used with some of the big canvas prints companies.

You can do lots with canvas photo prints, you can give some away as a gift or you can keep a canvas print for yourself or even if youâ€™re an artist you can showcase your work with a few canvas prints to give your potential customers a good idea of what the original artwork or painting looks like and of course they can also have the option to get a reproduce version of your work as a photo canvas print, isnâ€™t that just so good.

The really good thing about a canvas print is that they tend to come a on a stretcher bars frame to which is not only great for the life long lasting stretch of the canvas but it also gives the canvas allot of character to which makes your artwork look fabulous to, so it really doesnâ€™t matter if itâ€™s a print o your artwork as sometimes the canvas print is the most favoured one due to the clean and professional look then give off, it s a very glowing and masterful way to show off your photos to. Allot of photographers will offer a canvas print with your package when you have a photo shoot or they might offer you some photos plus a canvas print for half price. They really are very hard to resist due to all the benefits a good quality print on canvas can do for you and your home, canvas pictures are also know in the interior design subject to so if you ever get stuck of what to put up on your wall no matter what room youâ€™re in the donâ€™t forget you donâ€™t just have to get a normally p a frame you can be spontaneous with your photos and have them up on your wall celebrating your happy moments that you treasure and your basically giving your photos a makeover as the canvas print seems to be at the top of wall decoration accessories. This is what makes the canvas photo print one of the best possible due to it being very versatile.
