Printing your photos on wallpaper by [Andrew Bourke](#)

Article published on February 21st 2012 | [Photography](#)

There is plenty of different types of things you can do to experiments with your photos these day and one of them would be to have your very own images printed onto wallpaper so that it could go in your very own living space, now that would be very unique and I'm sure you would be the talk of the street. You could either print your photos onto wallpaper or there is online website that offer bespoke wallpaper which have their own design on for you to choose from to if you don't have any photos that you would like to get printed.

You have the option like having you photo framed or to have it printed on canvas and wallpaper to and I'm sure there is plenty of others, I think if you have any children then you could get some either personal canvas photo prints made from your images or you could go with the amazing new idea that is having your photos printed to wallpaper to. If you can't decide which to get either a canvas print or a get some wallpaper then you could get both, yep I said you could get both indeed and that would be really good to because you could have some kind of design on your wallpaper and then you could have canvas photo prints of your personal photos and that would give this most amazing effect and really would bring your photos to life to.

There is lots of designs to choose from or even if you took a picture of a design that you really love then you can forward that onto the printers and they could then print onto the material for you, you can do the same with your canvas print to, just simply take a photo and go to your computer and forward it to either there email address or if you wanted to you could put the image on a disc and send it to them in the post, it really easy and the results are simply outstanding.

The ideas we talk about really would be the ultimate interior design and will turn your home into somewhere you not only feel happy and warm but it will make you want to be there and show it off at any opportunity and that makes you feel something special inside.

Most designs that you find for wallpaper images would be of landscapes views like new York city is a popular one or views of scenery like mountains and the sea or even animals to, there really is lots out there, all you have to do is have a little browse and let your imagination run wild and see what you end up coming up with. Remember if you wanted to go for the canvas prints and the wallpaper image look then I would recommend that you put your photos on the canvas and the scenes on the background, or then again that really up to you and what sort of effect you looking to get, I hope this has inspired you.
