Proaim Kit-20(C) pack by Brent Crosby

Article published on March 20th 2012 | Photography

The Proaim Kit 20(C) is one of the most advanced camera shoulder rig available today. This kit includes everything that will make your shooting experience a memorable and perfect one. Some of the main constituents of this kit are DSL Rig 120 and an auto focus feature. Another vital constituent is the MB 600 matterbox. A 9â€• camera cage is also part of the package which comes with a top handle. Apart from these vital constituents, the kit also contains some free items.

The Proaim cage is well designed to accommodate all these vital items. It contains a cheap dslr shoulder rig which can help you to shoot a low cost, yet effective movie. It is widely used by both amateur and professional camera men alike. That is the reason why you see this cheap shoulder rig being used in the manufacturing of both commercial as well as professional movies. The application of this rig can reduce the operating cost considerably. In this industry, every penny spent in an effective way will have a pronounced effect on the outcome of the venture.

One of the greatest requirements of a shooting facility is to have camera equipments that can be used alike in both indoor and outdoor setups. This Proaim shoulder rig enhances users to use it any way they want to. It can be held in your hands, placed on your shoulder or even a tripod according to your need. The dslr camcorders can be used with or without a handle. It depends on the person using it as well as the shot that it is being used for.

You are eligible for a huge discount if you opt for the combined kit. You can save up to US $845 from this deal. Now, this is not a small term considering the total production cost for a movie. It also includes certain special features namely top handle with soft grip, threads on cage bracket, provision for audio mount, camera height adjustment, aluminium male or female threaded rails, offset for dslr users, counter balance, balance adapter, telescopic handles with soft grip, tripod mount plate, silver aluminium knobs, higher adjuster, front adjuster, side flags, positional indicator, standard accessory port and so on. The cage design can provide excellent comfort no matter what kind of shooting mode you prefer. It can be adjusted as per your requirement hence makes it one of the most sought after cage design available today.
