Top 7 Photography Workshops by Devonte Quinn

Article published on July 17th 2012 | Photography

Many people are choosing photography as their profession. If you want to learn about photography or enhance your skills, you should attend the photography workshops. The best part about these workshops is that they are organized at beautiful locations where you can learn the practical aspect of photography. The below mentioned workshops are the best photography workshops that aim at enhancing your photography skills.

1 DAY CLASSROOM COURSE

This workshop is designed for those who want to join the beginners course but cannot attend the classes for a consecutive number of days. It is a full-day workshop that covers subjects such as camera controls, relationship between aperture and shutter speed, correct exposure and focus, composition, artificial light etc.

SUFFOLK COAST PHOTOGRAPHY WORKSHOP

This workshop is held at various locations along the sunshine coast of Suffolk. This area has a tremendous photographic potential. It is a full-day workshop where the students can learn about composition, use of photographic filters, use of light, camera controls, accurate exposure readings etc. They get a fully detailed set of notes. The environment of the workshop is very enjoyable.

KENT COAST DIGITAL PHOTOGRAPHY WORKSHOP

This full-day workshop is held at the Kent Coast. It covers two beautiful locations. The St Margaret's Bay is an attractive spot with beautiful tall cliffs and rock pools. Various photographic techniques such as composition, photographic filters, use of shutter speeds and apertures, taking and assessing histograms and exposure readings are taught here. Another location is Reculver Towers. At the maximum, 4-5 people can attend this workshop. Notes will be given to the students.

CHELMER VALLEY PHOTOGRAPHY WORKSHOP

This workshop is held at the countryside in Essex. The Chelmer Valley is the perfect destination where one can learn about photography. It is a full-day workshop that can be attended by four to five people. Various subjects are covered such as use of white balance, controlling exposure, camera controls, use of aperture and shutter speeds etc.

DORSET COAST PHOTOGRAPHY COURSE

This workshop is held at the Dorset's Jurassic Coast. It can be stretched up to 1, 2, or 3 days. Various subjects are covered such as quality of light, composition, camera controls, histograms etc.

SUSSEX COAST PHOTOGRAPHY COURSE

It is a full-day workshop that is held at the Sussex coast. Many technical aspects of photography are covered in this workshop. A night shoot is also included during winters.

FLATFORD MILL PHOTOGRAPHY COURSE

This full-day Photography Workshops is held on the river Stour in Sudbury. You can learn about

various aspects of photography here.
