Article published on January 20th 2012 | Real Estate

Genesis Infratech is a budding and enterprising real estate group which is led by 25 years of sound experience in this industry. The company is driven by innovation and modern techniques of building houses and official complexes to provide utmost comfort and convenience to the clients. In an endeavor to provide optimum and world class services to all its customers, Genesis real estate is coming up with a new project called Genesis Greens which is a residential complex in the new and upcoming industrial hub, Bhiwadi. The residential project is spread over a vast green space which is a welcome change from the bustling metro cities. One can very well harmonize with nature, environment and surroundings. It is a well planned and aesthetically landscaped Bhiwadi housing project.

Unlike other real estate builders in Bhiwadi, Genesis group very well understands that each customer is unique and has different opinion about his dream home, thus it provides exclusive solution for each client. Gardenia Greens is build post a lot of research about how people wanted their dream homes to look like. It is driven by sheer eminence and grandeur. It is a gated residential complex to make it safe and secured for your family. Even in your absence the guarded entry makes sure that your family is safe. The unsurpassed location, midst green pastures and tranquil surroundings makes it a utopian abode. The vicinity is extremely well landscaped with green covers to make sure your family gets to live in a pollution free environment. It rejuvenates you and energizes you for a better life. Healthy atmosphere keeps you mentally and physically fit.

Genesis Gardenia supports living a stress free life and enjoying every bit of it. Basic requirements like hospitals and educational institutes are few meters away from your residence. A dedicated club house promotes socializing with friends with in the complex. The facilities of plethora of indoor and outdoor games, dedicated gymnasium for the residents and many such services make living pleasurable here. Jogging, walking on a dedicated track, meditation in Meditation Park and yoga in pollution free environment is bliss. This township in Bhiwadi provides modern amenities like IGI airport, New Delhi, is just 40 minutes away which makes this place approachable. Constant water and electricity supply without disruption, fully automated lifts and dedicated parking space are added advantages. The concept of two-side open apartments has been designed not only to provide modern day living facilities but also to enable free flow of air and light in the house thus conserving energy. 2 and 3 BHK apartments are designed as per vastu directions and neo rich specifications. Kids play area and convenience stores are also there.
