â€¢ There are a few queries you must ask the dealer. You should know if they are accredited Fiat dealers. Find out the standard features and the options available.

â€¢ Check out from the dealer the actual car price and be aware of the add-ons and its charges. Ask them if they can remove the expensive luxury options in order to lessen the total cost.

â€¢ Fiat dealers should be able to tell you about the payment options and what documents are needed for its process. Finally, you should find out the time taken to process the purchase.
