Manchester Plastics for the best in all weather surfaces by Julia Roger

Article published on November 26th 2011 | Recreation

Manchester Plastics Ltd are a forward thinking innovative company founded by Alistair Goodwin in 1988 and has successfully earned a reputation as among the best in this particular business not only for their highly reputable and quality ingenious all weather surfaces but also for their dedication to recycling, long before it was the norm!

We have been providing equestrian surfaces for thousands of arenas all over the country for over 20 years and have built up a flawless reputation largely due to the passion we have for our work. We are committed to staying at the top of our game in all weather and equestrian surfaces and so are continuously developing further ideas which will enhance our performance and allow us to say we are the elite. We have exclusively developed products such as flexifibre, we pride ourselves on providing a quality surface to suit your requirements and budget, whether for leisure or professional/commercial use. Our range of surfaces suit indoor and outdoor application and we are happy to provide full construction or supply the surface alone. We are considered as the one stop shop for equestrian surfaces, suitable and adaptable to consider all weather surfaces.

From enquiry through to completion, we aim to ensure every contact with you is meticulously attended to. At Manchester Plastics Ltd we understand that this is a significant investment and as such requires particular attention to detail. Our main objective is to make sure that the end result meets up to all expectations, contact the experts today on 01260 224 010 or online at www.manchesterplastics.com where our highly trained personnel will advise you on the best solution for your needs, we welcome visits to many of the gallops and equestrian centers we have helped through out the UK, where you can truly appreciate the nature of our work.
