Why Hire an Expert to List Your Business Online by [Boost](#)

Article published on June 29th 2012 | [Seo](#)

Whether you have a start up business, or your business has been around for years now, youâ€™ll have heard of online directories. Maybe you have even listed your business yourself on online Yellow Pages. Many Web based Yellow Pages and directories are actually free to use. Believe it or not, as long as you have created the â€œproper listingâ€™, you can expect an improvement in the percentage of people who visit your website, call you up to inquire about products on sale at your shop, and so on.

If you want foolproof results through directory listings, it is advisable for you to hire an expert, just like Splatr. The company, which you can reach at 855-477-5287, offers directory listing services. You can expect its staff to create optimized listings for your company as well as choose the best categories to list your business in. You can also expect suitable images included in the listings.

Why is it better to hire a professional who will take care of listing creation and optimization, e.g. Splatr, instead of making the business listings yourself? Well, one reason is that not all online Yellow Pages, web based directories, and the like, have the same requirements and rules. When you call up 855-477-5287 and leave the task at the hands of one of Splatrâ€™s employees, you can be assured that he or she knows perfectly all the rules and requirements of directories like Yahoo Local, Google Places and Bing Local. The listings created will be approved immediately because of this fact. You need not go through the experience of your listing being declined as long as you let a professional do the work.

Another good reason why hiring an expert is best is because of the need for optimization -- keyword research is one of the tasks that you should leave to a professional. Keyword competition, number of searches for a keyword, etc, may be alien to you, which is why you should entrust those tasks to Splatr. You also need not worry about what images to add to your business listings, because the company will also handle that. If you want to get maximum benefits from online business listings and start enjoying the patronage of more customers and better sales figures, dial 855-477-5287 today!
