Get to know which quality makes Kindle the best e-book reader. by Daniel Brooks

Article published on July 10th 2012 | Shopping

kindle is an amazing gift given by amazon for the people who love to spend their time on reading books, magazines, blogs, novels, etc. Itâ€™s an electronic device which brings power of library on your finger tips. Kindle is also considered as the best e-book reader in the market because it facilitates you to carry massive amount of books in a single device. With kindle you donâ€™t have to worry about carrying your favourite books every time you read because it gives you liberty to carry your favourite books in your hands every time.

Kindle enable users to download, browse and read e- books, newspapers, magazines, blogs on a single device. Now kindle becomes a rage among many bookworms across the globe. It is useful for specially those people who love reading books but because of frequent travel they are not able to read books.

Developed to compete with a simple paper book, kindle is packed with a wide variety of features such as:

1) Storage capacity: Kindle facilitates you to store books up to 3,500 along with newspapers, blogs, magazines etc. Due to this amazing feature you can enjoy reading books anytime- anywhere according to your need.

2) Bookmarks and notes: This is one of the best feature provided by amazon while keeping in mind the bookmarking facility of paper book in this device. If you find something you want to refer later then you can easily book mark the page by pressing the â€œ menu â€œ button and select â€œadd bookm option.

3) Kindle screen: kindle is light weight, easy to handle and easy to carry around device. It mostly feels like a regular book. The kindle screen use ink which is better called â€˜ e â€“inkâ€™ according to am that is why kindle screen doesnâ€™t use light to light up the pixels. This ink is simply arranged on the kindle screen which create the image on the screen. The best thing about e-ink is that it does not require any energy to maintain itself due to which kindle screen just appears like a same normal paper.

4) Text-to-Speech application: With this feature the kindle can read books, newspaper, and magazines out loud just only for you through the speakers or through headphones plugged into the kindle. To use this text-to-speech application, simply press â€œText Keyâ€• option while you are reading and this will allow you to access the text-to-speech very easily in your device.

5) Dictionary: The kindle has in-built dictionary in it. Due to this amazing feature you can easily look up the definition or meaning of the difficult words very easily on the your device and not only this you can also highlight your important sections of your e-book in kindle very easily.

6) Customaries font size: With this feature you can easily customise the font size of the entire content of the book. Not only this you can also customise the screen rotation, typeface, words per line according to you.

So, if you wish to read your favourite books any time-anywhere, then this is the best time to grab yourself this amazing product. So, stop waiting and if you are in Australia then just rush to Readershop and buy your favourite kindle and enjoy reading all kinds of books right at your fingertips.
