Article published on July 3rd 2012 | Shopping

Hair Bows have always remained in fashion for women of all age groups. No matter if you have long hair or short, hair bows have always made women look pretty. When hair bows are matched with the dress that is to be worn, then a magical beauty is created. Hair bows are made with the help of ribbons, especially satin ribbons. You can find them in various shops or you can make them by yourself to give you the sweet and sexy look, which turns all eyes towards you.

To make satin ribbon hair bows, you would need: ribbons, hair clips, scissors, needle, thread and glue. As soon as you arrange for these things by buying them from a store we can start with the bow making procedure.

â€¢ Select the types of ribbons you want starting from satin to grosgrain. Arrange for different colours as per your clothes design.

â€¢ There are many ways to fasten bows in your hair, select the best mode available to you. Select ties, clips, head bands whatever suits your need.

â€¢ Decide a size for the bow, cut the ribbon after measuring the required size and then cut it with the help of a scissors. If you want to use two or more colours, use more and different coloured ribbons cut into the similar sizes. The general standard sizes are 8 inches.

â€¢ Tie a knot with the head band or the clip you chose and make bow with the ribbons by folding it.

â€¢ Finish the edges with glue and nail polish, or stitch it where needed.

Different types of satin ribbon hair bows are ready to be worn for different ceremonies and with different matched or contrasted dresses. Save money and give yourself the beautiful look.
