How to Remind Your Husband About Your Anniversary by Ram Singh

Article published on August 21st 2012 | Shopping

If you are saddled with a husband who is perpetually forgetting about the anniversary date, it is time to take the matters into your own hands. After all if you do not take on the responsibility of reminding him, who will? While many a times women think a world about the marriage date, for men it is less subtle. So the onus lies on the wife to remedy the matter and help the husband get the priorities straight. However for a woman nothing is impossible. She can get what she wants if her mind is set. If a forgetful husband is the matter, tact, and delicacy are in order.

There are a number of ways to remind him of your anniversary. For the days leading up to the anniversary day, you can leave subtle hints regarding what a particular date in the near future entails and what you plan to do that day. This will give your husband ample time to get prepared with his own little anniversary gift ideas and wish list. There are different additional direct strategies too. create that day quite outstanding on the calendar packed with colors and glitters so it can not be incomprehensible even by a blind man.

Also you can make total use of the modern gizmos. Cell phones are fantastic user friendly devices. So you can set the anniversary date as an important reminder in them and forget all about it yourself. On the relevant day this intelligent phone will not allow your husband to forget the occasion. It is necessary to give the person you love and care about ample time to plan something for the coming event. So dropping hints time and again will tell him that you are sensitive about his schedules and do not want to put him in a fix.

For some months before the anniversary, if both of you start planning what you want to do on the particular date, there will be no issues about forgetting ever again. This will also give both of you a chance to do something together as a couple which is exclusively for yourselves. Increase the intimacy with cozy and romantic celebrations. With the right tactics and a heart full of love it will not be at all difficult to remind your husband how much being married to him means to you. And once this message gets across clearly you will never have problems regarding anniversary dates ever again.
