Jimmy Choo is a real wizard who knows how to turn a boring look into a real fashion manifesto. These chic accessories radiate a Mediterranean and exotic allure perfect to get into the groove of the warm season. This spring live out your wildest accessorizing fantasies and ditch minimalist style looks. It's time to stand out from the crowd with your eclectic outfits.

The latest ad campaign offers a prominent role to these extraordinary clutches which speak for the versatile and all-age-appropriate style policy of this brand. JASMINE clutches tinted with two matching shades provide you with a chic accessory option to top your semi-formal or urbane chic ensembles. Light coral, light khaki and yellow are the hottest shades to keep an eye on. Vamp up your closet with bold hues which scream subtle elegance and sex-appeal. The spacious interior and the exquisite signature hardware with zip details make up the perfect recipe of a timeless and universally-flattering clutch.

JUSTINE is the name of the game if you're lusting after sensuality and high-street sophistication. Jimmy Choo furnishes the style armada with a versatile bag which emanates 70s style sportswear trends. However, calf skin and the first class chromatic composition offers these accessories a tint of luxury. Using the same color combination as in the case of JASMINE bags, Jimmy Choo builds up a complete family of faddish bags which should definitely feature on the top of every IT-girl's wishlist. In addition to these iconic designs we have the ROSALIE bag tinted with different sight-pampering shades and the REBEL bag.
