Tremendous spike in prices of gold and diamond was recorded in the year gone by and there is no respite expected from this price hike in near future as well. Consequently, the diamond jewellery that used to be costly earlier has gone costlier than ever and virtually out of the reach of the commoners. While most clients are compromising on the quality and size of the diamonds in their engagement and wedding rings, the smarter and vigilant ones have discovered a better way out. Couples who keep a watch on the latest market trends are swiftly turning to the direct diamond jewellers such as Hearts of London in UK.

The leading direct diamond jeweller in the UK, Hearts of London designs and manufactures beautiful and timelessly stylish diamond engagement rings, wedding rings, platinum wedding bands, eternity rings and fine jewellery pieces. Hearts of London has its workshop in Hatton Garden- the paradise for diamond jewellery connoisseurs throughout the UK as well as abroad. Hatton Garden was the centre of London's diamond jewellery trade in medieval times and, even today, it continues to remain the most sought after address for the jewellery connoisseurs who want nothing less than the best. Hearts of London gemmologists and goldsmiths work in close coordination to choose, cut and design the best quality diamonds. These diamonds are then set in the classiest and trendiest ring settings to exude unparalleled elegance and true British charm. Each piece of jewellery is crafted with utmost fastidiousness using only the finest quality precious metals (gold and platinum) and diamonds that are ethically sourced, guaranteed conflict free and GIA certificated. Needless to say, GIA (Gemmological Institute of America) is the most respected gemmological laboratory in the world.
