Premium Quality Baby Blankets for Your little ones. by [Mary Jones](#)

Article published on December 8th 2011 | [Shopping](#)

Are you planning to buy baby blankets? Do you know about swaddling blankets and its importance? Well, recent research shows that swaddling your baby leads to better and longer sleep. Yes, your baby can have deep sleep for a longer amount of time that can help him or her grow fast. In addition to this, swaddling blankets help reduce the risk of Sudden Infant Death Syndrome (SIDS).

Swaddling makes it possible for you to put your baby to sleep on her or his back comfortably. Rather than stomach sleeping, back sleeping is recommended by the medical experts as it is a way to lessen the risk of baby dying due to SIDS. That is why many parents prefer to buy baby blankets. Wide varieties in baby blankets are available at reasonable rates. However, you need to think about different factors while buying blankets for your little ones.
