Removowa Luggage: for a Convenient Journey by Julia Roger

Article published on May 17th 2012 | Shopping

Rimowa is a German Company, which is into manufacturing luggage under the brand name Rimowa. The company was established in 1898 and has established well in the market. The rimowa luggage is famous for the materials used for manufacturing and has specific looks.

Rimowa is the manufacturer of ultra lightweight luggage made from aluminum, which are highly durable. Rimowa launched the concept of making luggage from aluminum material during the 1950. This was necessitated because the earlier travelling modes of bus and train were shifted to air travel during this period. This required lightweight luggage, attachÃ© and other types of cases. To address this requirement of the travelers, the company introduced lightweight luggage. This got an immediate acceptance among the travelers for its durability, lightweight and their unique grooved outer surface. The brand has good market even today. They are handmade luggage and consist of multiple parts. The company has also introduced high tech polycarbonate luggage. These are lighter and more resilient than the predecessors are, but not as sturdy. While travelling by air, every pound of weight becomes important. Under such circumstances, Rimowa luggage, which is ultra light, provide some extra weight for other items. The vibrant, lively colors make them all the more attractive. Brics bags are a branded bag that is unique in style, quality and comfort. brics is the brand name of the company, which was founded in 1952 in Northern Italy. Since the time of establishment, the brand has carved a niche for its exclusive Italian luggage and handbags. The Bricâ€™s are available in a wide range and design and different categories like Cabin luggage, hand luggage, exclusive for ladies and kids, gift items and so on.

For people who are on move frequently, Removowa luggage and Bricâ€™s are the best options as they are durable, light and comfortable for traveling.
