You are heading towards a trip and pull out your suitcase to pack up all your clothes and what you find is a big hole in the bag bottom. At this moment you decide to purchase a new one & after shopping around you observe a flood of styles & brands in the market. And now eventually you scratch your head, look into the sky and ask for a help. If seen serenely, then buying a luggage is not a tough task. All you need to do is to make a list of all your needs to confine the choices. Then with the help of this list, you are able to select which one you like the most. But, donâ€™t forget to insert the lightweight luggage option in your list.

You might ask why is it so necessary that it should be a lightweight only? Well, undoubtedly no one likes to carry a very big size luggage. Lightweight luggage are easy to carry and reduces the stress over your hands so that you are not irritated by carrying it all the time. Moreover, lightweight luggage decreases the probability of you having to be charged for the extra weight at the airport terminal. Victorinox luggage and the other one Rimowa luggage are the king of the lightweight luggage industry.

The Rimowa has a sophisticated, business look while fulfilling all the size requirements. If you pull it through your hand, you will really find it very much light as compared to all other brands presented in the market. The Rimowa suitcases combines hard plus soft to produce a flexible, yet solid suitcase. Now you would be curious to know how much it weighs. Astonishingly enough, it is just 7.5 pounds heavy!. The Rimowa suitcases also come with some extra pockets which let you to carry small important things very carefully so that when you need them, you can easily approach them. In the market. You can buy a Rimowa suitcase for around $400 from offline or online stores both.

However, at the time of purchasing the lightweight luggage you are supposed to check the material through which it is made before actually buying it. If you donâ€™t want to carry something fragile, then you can go for soft sided luggage. If you carry something which is breakable, then go with the hard shelled. Suitcases having soft sides can be made from polyester such as the Victorinox luggage.

Now you are all ready to shop everything you need. Get online, compare out the prices and donâ€™t forget to go through the reviews for better helping.
