Article published on June 21st 2012 | Shopping

Who doesnâ€™t want to shop for fancy dresses? Very few to identify from a large bunch of crowds! Shopping is a hobby and passion for many. Men do possess some passion for shopping, but itâ€™s much less when compared to the intensity of women.

Women love to buy dresses, shoe, and different apparels to look attractive all the time. Itâ€™s in their nature. When itâ€™s about fashionable dresses, there are very few brands that have achieved so much success like Odd Molly and avoca. These two are quite popular in designing the finest of crochet, tees, plissee, long skirts, miniskirts, tops, gown, tunics, and hi necks.

In the world of women garments, Avoca and odd molly dresses are very popular. They are made up of 95% cotton with 5% elastane fiber. There are also those garments that contain around 33% of viscose and 67% of cotton. These are great for summer season. However, washing should preferably take place through machine.

While talking about washing, any garments from Avoca and Odd Molly should be washed with gentle detergent powder. Direct exposure to sunlight is strictly non-recommended. It may affect on the quality of these garments. It is mainly the color that will get affected. Fading of color is likely to happen when these garments are directly exposed to strong sunlight. Even washing them with strong detergent powder or liquid can also affect negatively. It can also result in fading the color of these beautiful garments.

Those who are eager to purchase garments from Avoca and Odd Molly brand, they can easily do so through the internet. There are several online stores that sells garment of international brands at discounted rates. And most of these online stores do offer free-money back/replacement guarantee within a certain period from the delivery time of the product to customer.
