Leggings are a type of fitted clothing covering the legs, which can be worn by both men and women. Original leggings were two separate garments, one for each leg however modern leggings are typically made from a blend of lycra, spandex, nylon, cotton, or polyester blend, but they can also be made from wool, silk and other materials. Leggings are available in a multitude of colors and decorative designs and are often worn over jeans, pants and also skirts and are usually worn for protection and support of the legs. Leggings have also been used for the cold weather and until now, it is used for that purpose. At present, leggings are very fashionable and stylish that it is worn for both casual and formal affairs. They are also sometimes referred to as tights with so many uses and purposes.

There are still so many styles that you could do with it and they are so versatile that you can wear them with almost anything from jeans to skirts, even pants. For women it is for fashion but for men, they usually wear it for the cold weather. They wear it as an additional layer so one doesnâ€™t notice them because it is usually under their pants. When women wear it during the cold season, they always pair it with a nice, long sweater top or an over-coat so they do not need to wear something on top of it. If they wear it with a nice top, then the leggings would look more fashionable. Find a look that fits you and research other looks that would look great on you.
