A necktie is nothing, but a lengthy and narrow piece of cloth made out of any type of fabric like linen, wool, polyester, cotton or silk and even other fabrics worn by men under the collar and tied around the neck with loose hangs. It is an important part of costume for most of the men and in some nations almost all men can be seen with a necktie. Even though, ties were known to have become popular only the 20th century, in the olden days, people would have used this type of costume and this fact was found from the terracotta statues that belonged to the period of Chinaâ€™s First emperor.

Generally neckties of different models like solid neckties, floral ties, paisley ties, skinny ties, etcâ€¦ are used as a part of formal costume for different occasions like weddings, office meetings, etcâ€¦ and some of them wear them during personal parties as well.When Solid neckties are used, the users will have to understand the different between the size and shapes of the collar of their shirt. To offer the best look, the tie should be chosen in such a way that it matches well with the shirt and it should actually be in contract color in such a way that the tie can be seen easily at the first appearance. It should be remembered that the tie knot should not be larger than the collar spread since it will offer an appearance as if the tie is stuffed under the collar as against placed neatly between the edges. Also, it is essential to remember that the width of the tie should be in co-ordination with the width of the collar of the shirt.
