Handy tips to buy your favorite jewel â€“

1. The first thing you can do is to make sure that you select your budget. This is surely going to narrow down your search whether it is on the web or in your jewelry store.

3. The color of turquoise jewelry is important to note, as it is often blue and green, with several blotches in it. These marks can be black, yellow, or white, donâ€™t think these mean the stone is no good, it just means that the pigmentation of the stone varies. This is what makes the jewelry truly unique.

4. It is important to know that the stone you buy is genuine. You can ask for a certificate that shows you the origin of the stone as well as what type of treatment it has undergone. You want to insist on the certificate as this is the one way you can make sure the turquoise jewelry is genuine.
