Convert FLV to iPad on MAC to Watch Your Memorable Videos Directly by Vivianusgong

Article published on March 16th 2012 | Software

"I have some memorable flv video files on my Mac and want to view them with my newly iPad 2 WiFi+3G. Is there any way to convert FLV to iPad by using a Mac?"

Well, in this article, you will get a step-by-step tutorial to learn how to play FLV videos to iPad on Mac with a powerful Video to iPad Converter for Mac.

You know that we can't directly view FLV files on iPad, while the best video format for ipad is mp4 (avc/h.264 video codec, aac audio codec) video, so you'd better use a suitable software to convert flv video files to mp4 format that can be supported by your Ipad 2, then you can drop the converted video files to ipad and play them well.

Well, when we refer to choose an iad video converter for personal use, most people may think about download a totally FREE video converter to do this job. But I don't think there is a free converter can do that well, because I tried many free converters before, none of them works well, some of them have many limits, some of them are poor quality, some of them even have virus. so you can follow me to use a cheap Video Converter to do that job. Other than convert flv to iPad on Mac, it can convert any video files and audio files between different formats/codecs, such as convert your AVI, MOV, MKV, HD video files to the best ipad files, then you can transfer the converted video files to your ipad and play well.

How to convert FLV to iPad on Mac?

* 1. Adding video files

Once you've launched FLV Converter for Mac, you can simply drag the FLV video files you want to convert into the main tray. If the files are not at hand, go to the menu bar, and choose File -> Add Video Files to browse your computerâ€™s hard drive for the target FLV videos.

* 2. Select the output format you want

Click iPad in Apple Devices to choose output format from the list of available formats, and then set the output file name.

* 3. Start conversion

After youâ€™ve adjusted all settings, simply click the "Start" button to begin the conversion.
