Article published on July 1st 2012 | Software

Panasonic HDC-HS700 camcorder provide us with full HD 1920*1080 with 60progressive recording using their 3MOS sensor system make it easy to get perfect video even in low-light. The Panasonic HDC-HS700 camcorder is the most popular camcorder in 2011, it also has a 240GB hard disk drive which is enough for storing a long video and records 5.1 channel surround sound with the five built-in microphones.

Panasonic HDC-HS700 camcorder stores videos in MST format with MPEG-4 AVC/H.264 compression with high quality, which is a real consumer camcorder. It almost no disadvantage except the only one: the Panasonic HDC-HS700 video can't edit in Final Cut Pro(FCP). This is because the FCP can't support MTS format, you have to find a conversion software to convert Panasonic HDC-HS700 to FCP on Mac.

Mac Panasonic HDC-HS700 to FCP Converter is the best Panasonic HDC-HS700 to FCP Converter for Mac I have used which can finish Panasonic HDC-HS700 to FCP on Mac conversion with several Mouse clicks. And its friendly face will let you use it as easy as ABC. And also it can convert MTS to other popular formats if you want. With it, you can even edit your MTS files by trimming, cropping, merging, replacing audio, adjusting video effects and so on.
