Falcon Northwest Mach V by Theodore Sumrall

Article published on April 29th 2012 | Software

Falcon Northwest Mach V includes most of the new updates, such as Intelâ€™s new Six Core Processor, new motherboard chipset and other features which are possessed by high ending computers. Although the new Falcon Northwest Mach V comes with all new features and components, but gamers are not finding it as impressive as Intelâ€™s i7 Core processor.

Falcon Northwest Mach V offers impressively fast performance for professional level gaming, however same experience can be enjoyed by spending less. Like any other PC vendors, Falcon also has the tradition of offering the latest PC components and hardware to its customers. The Falcon Northwest Mach V which is powered by six core 12 thread Intel Core i7-3930 processor offering high level of performance costs about $4,995. However, same performance can be enjoyed from the older version of Intelâ€™s processor, which costs almost half the current price of Falcon Northwest Mach V.

The Mach V is powered by Intelâ€™s new i7-3930k processor, which clocked with the speed of 3.2 GHz. The sandy Bridge-E will be further introduced in two other models, which will be launched in early 2012 with 3.3 GHz Core i7-3960X for extreme edition and quad core 3.6 GHz Core i7-3820. These new models also include the Intelâ€™s Turbo Boost 2.0 and Hyper threading technologies for faster processor.

Tweaking factor is essential; here K which is placed at the end of processorâ€™s name shows that its core multiplier is unlocked and it can be over clocked. The firm has forces the barrier of Core i7-3930K with 4.4 GHz to 4.7 GHz, thereby offering professional level processing speed.

Currently, Falcon Northwest Mach V is available in the market for about $4,995 that comes with Intel Core i7-3930K processor which operates with the speed of 4.4 GHz and Intel x79 Motherboard. spyware protection removal The computer is further supported by DDR3 SDRAM with 16 GB memory that runs at 1,600 MHz. Its video graphics is supported by Nvidia GeForce GTX 570 graphics card with 1.28 GB memory.

The Falcon Northwest Mach V offers larger storage capacity of 128 MB Crucial SSD and 2 TB of hard drive which operates with the speed of 7,200 rpm. It comes with the optical dive which has the capability to read and write Blu-ray and DVD. Falcon Northwest Mach V comes with installed Windows 7 professional operating system, which operated with 64 bit. Overall, we can say that the computer is high ending and high performance machine.
