How to convert 3GP to iPod on Mac using this video converter? The following will show you a step-by-step guide to complete conversion tasks.

* Step 1: Install and run the software

After installing Mac 3GP to iPod converter, run the software. You can see the main interface.

* Step 2: Import the source files

Apart from using Add button to load the 3GP video, you can drag one or more 3GP files into the source field directly.

* Step 3: Select output format

Click "Profile" drop-down button at the right side of the main interface to choose the formats you need, then click "Browse" button to choose destination folder for saving output files.

* Step 4: Set detailed parameters

Choose the file, set audio/video quality and define output filename in "General" tab. You also can go to "Advanced" tab to set detailed parameters for the video as you like. Such as the size, bit rate, aspect, channels, etc.

Note: If you do not have specific requirements of the output video, skip this step.

* Step 5: Start the conversation

After finishing all the settings, check the target files you want to convert, and click "Convert" button on the toolbar to start conversion task. A progress bar will appear during conversion showing the percent it converts.

It will take a bit of time to convert 3GP to iPod on Mac. Once conversion is done, iTunes will automatically be started. All you have to do is copy it into your iPod library and enjoy it. The above is the simplest function of Mac 3GP to iPod converter. More functions are offered to you as below!

1. Define your own output profile

If the options in profile list do not fit your need, click "Custom..." in "Profile" drop-down list, and check the formats you want to list in "Profile" list.

2. Trim segments

Before converting, you can trim your favorite segments to make a unique video.

Select the video, click the "Trim" button on the toolbar and choose the beginning and end of the segment as you wish, and then make output settings. The software will only convert the segments for your iPod.
