How to Convert MOV to Samsung Galaxy Tab 10.1 mac by Nadia

Article published on December 1st 2011 | Software

I am converting MOV videos to mp4 format but can't play in my Samsung galaxy tab 10.1. It says " Video can't be played". Tried various software to convert it , but they are only trial version. can't find some software to convert it to my Samsung galaxy tab 10.1. Help me guys!

As we know, MOV is common multimedia format often used for saving movies and other video files; uses a proprietary compression algorithm developed by Apple Computer; compatible with both Macintosh and Windows platforms. If you want to play your own MOV file on Samsung Galaxy Tab 10.1 perfectly, you need to convert MOV to the video files like MP4/H.264 videos that Tab 10.1 supports first.

I also once come across the same circunstance, after one pain google search, i finally found the MOV to Samsung Galaxy Tab 10.1 Converter for Mac software, I download the free trial and found itâ€™s very easy to use, and the conversion quality very amazing. The price, simplicity, and strength behind iOrgsoft this was an easy ideal purchase for me this year. As with many other video converter tools, the user-friendly interface of this software really comes down to the various users needs.

The simple yet powerful Samsung Galaxy Tab 10.1 Converter for Mac not only can convert/transfer any other videos to MP4/H.264 for playback on Samsung Galaxy Tab 10.1 freely, but also customize your own videos like edit/cut/trim/split video mac into smaller ones, join/merge several video files into one mac, adjust effects(Brightness, Constrast, Saturation), set many encoding parameters including resolution, encoder, frame rate, video bitrate, etc with its professional manner.

Step by step guide to help you convert/edit MOV to Samsung Galaxy Tab 10.1 videos efficiently on mac lion.

1. Free download the MOV to Samsung Galaxy Tab 10.1 converter for mac lion and install it in your computer.You may see the main interface.

2. Import videos files by clicking "Add File" button, batch conversion supported. These loaded files will be shown in Name list.

3. Click the "Profile" to Click the drop-down list of Profile to select a proper format that you want to convert to, you can choose MP4/H.263/H.264 etc that Samsung Galaxy Tab 10.1 supports.

Click "Destination" button to select destination folder where the converted files will be saved.

4. If you want to split the video or adjust video display, click "Edit" button to create a video you really want.

5. Start converting MOV to Samsung Galaxy Tab 10.1 videos on mac os x lion by clicking button. You can see a progress bar which shows you the conversion status.
