How to change your password on an HP Pavilion g6?

I have an HP pavilion laptop that I use a lot. There are 2 accounts. 1 is an administrator and 1 is a standard user. The administrator account was for my daughter and the standard account was mine. My daughter forgot her password and we do not have a password reset disk. Does anybody know how to change this password and tell me clearly?

Do you have the same question with above HP Pavilion user? Itâ€™s absolutely annoying to lost Windows password, particularly Windows 7 admin password, because itâ€™s almost impossible to recover lost Windows 7 password with conventional methods. However, how to recover lost Windows password in an effective way? Donâ€™t worry. Windows password recovery software can help you fix this problem perfectly.

Windows password recovery software is professional tool to recover lost or forgotten Windows password in short time. It can recover lost Windows local password and domain password in Windows XP/7/Vista/2000/2003 and 2008 systems. The password recovery process is quick and safe and time-saving.

Step1: Download and install Windows password rescuer.

Step2: Create a bootable CD/DVD or USB. (A USB flash drive is better)

Step3. Start your Windows password lost computer and access BIOS to set your computer boot from CDROM or USB flash drive.

Step4. Insert the created CD/DVD or USB flash drive into the locked computer.

Step5. Select a user account to reset its password and click â€œreset passwordâ€• on the user list.

Note: Your Windows Admin password has been reset as blank, so you should blank the password box when you login computer.
