HP Omni 220-1080qd by Theodore Sumrall

Article published on May 1st 2012 | Software

HP Omni 220-1080qd is mid range desktop which is available for $ 1,000 and offers an impressively high performance compared to other desktops in this range. The Hp Omni 220-1080qd is 23 inch desktop and in this range of desktop we aspect to have the entire feature, however this desktop lacks the HDMI input, which could disappoint its users.

This computer does not support touch screen feature and also lacks the HDMI input port. Despite the absence of above features, the HP Omni 220-1080qd delivers extremely strong performance which will not disappoint anyone who is seeking for mainstream desktop.

Hewlett-Packard's Omni 220-1080qd is non touch screen mainstream desktop, which are available for $999 in the market. Instead of touch screenâ€™s hardware and software, HP has made an impressive choice by including much faster Intel Core i7 Processor and much larger RAM. Beside, faster i7 processor, Omni 220-1080qd also includes discrete graphics card that helps in delivering full HD experience. The inclusion of Blu-ray drive make this mainstream desktop all purpose desktop and the prices offered for this computer is just about $1,000. This desktop will definitely give a strong competition to other mainstream desktops in this price range.

Currently, HP Omni 220-1080qd is available for $999 and this mainstream desktop is powered by Intel Core i7-2600s processor, which clocked with the speed of 2.8 GHz. The desktop has display screen of 23 inches and offers a native resolution of 1920 x 1080 pixels. The desktop comes with installed DDR3 type SDRAM with plenty of 8GB space.

The HP Omni220-1080qdâ€™s graphics is supported by AMD Radeon HD 6450A, with memory space of 1GB. The desktop is capable of delivering full HD experience. The 1080qd comes with installed Hard Drive, which offers plenty of digital data storage capacity of 1TB of Hard Drive that runs with the speed of 7,200 rpm and Optical disc drive, which supports both Blu-ray and DVD burning. For network connection, the desktop comes with Gigabit Ethernet 802.11b/g/n wireless technology. The HP Omni 220-1080qd, mainstream desktop comes with installed Windows 7 home premium as operating system. internet explorer not working

Despite, the absence of touch screen and HDMI input port Omni 220-1080qd offers strong configuration and performance just at $1000. Going for this mainstream desktop could be a fair deal, compared to other in this list. For example Dell offers its touch screen enabled Inspiron desktop for $250 more, with much slower processor and small hard drive as compared to HPâ€™s desktops.
