Lexar Jump Drive Triton by Theodore Sumrall

Article published on May 2nd 2012 | Software

When there arises an issue of any sort of data transfer first name that pops in to brain is USB thumb or flash drive. Data transfer can be done by other modes like Compact Disks (CD) or Digital Video Disk (DVD) or floppies but the mode of transference has become either primitive or slow and not very handy. UBS thumb or flash drives has made the data transference fast and convenient and one just needs to plug them into USB jack, also they are available in small size so that their handling is not complicated as that of external or internal hard drives.

Lexar Jump Drive Triton is a type of USB flash drive or thumb drive used for data storage purpose that have memory with an USB (integrated Universal Serial Bus) interface. On its memory and thing written can be removed and something else can be written (removable and rewritable).

However, one fad here needs to be clarified that Lexar Jump Drive Trion just not an ordinary flash or thumb drive. This one of the dive which does not have the label of made in Malaysia or Bangkok or China, but this is clearly mentioned on it that it has been made in United States of America. But some buyers have this questions that is it entirely American manufactured or this label is just a result of patriotic gesture.

Lexar jump drive Triton is USB 3.0- thumb/flash drive that works faster than any other competitor. It has a beautiful designed body crafted with lustrous look because of metallic-alloy made body with a bright mirror like plastic cap, on the other side of which there has been made an eyelet so that any carrying thread or a key chain can be inserted it for easy carrying of the drive . Lexar jump drive Triton works for operating systems like Mac and Windows preformatted with FAT32 type of file system.

But two drawbacks that are frequently pooped up with their utility is the limited availability of space i.e. 64 GB only and other one is that this product is very expensive as compare to the other company products available in the market.

The Lexar Jump Drive Triton is available in market in three categories and which has here mentioned price, 16GB of price $60(about 3000 Indian rupees), 32GB of price $80(about 4000 Indian rupees), and 64GBof price $200(about 10,000 Indian rupees).
