Article published on December 7th 2011 | Software

Time Billing Software is a unique concept to precisely measure the time consumed in an attorneyâ€™sattorney or accountantâ€™s firm. Time is money and it is to be managed and evaluated for every organization, be it large or small for assessing, budgeting and client billing. There is software available for effectively handling the above scope of work which is called time billing softwareTime Billing Software. This software tracks the billable time with reports on individual billing. The software records the hourly transactions of an individual or a contingent. You can also calculate the fees for the time consumed. This Time Billing Software can generate billing on behalf of the firm for the billable Billing time. There are certain programs available for the designing of the bill in customized format and arrange to send it via e-mail through a PDF file. There are also software available for maintaining General Ledger and Accounts Payable which takes care of your firms accounting problems.

The total business transactions are recorded here along with receivable from the debtors and payable to vendors including the statutory obligation of paying IRS. Some programs have a check writing facilities too. While the time billing softwareTime Billing Software creates and tracks the billing it also uses the own template and put your logo in the billing. You can get the design done by an artist or create it yourself for your template which will be a distinctive feature. There can be pastel shades in the template too which would act as your back ground.

When you try to track the project time for the project undertaken by you of a client, this creates and tracks the project for you. This adds tasks to project and you can view the project detail too. You can design your own billing method and work on the on the project budget through this Time Billing Software. It also manages time sheet online for logging staff hours and monitor it too. At the end, it prepares the project report.
