Article published on May 2nd 2012 | Software

Now that you have converted some of your favourite PDF files to ePub using Calibre, Doremisoft PDF to epub mac or some other applications available which you want to read on your iPhone, but still you can't find an effective way to do it. Would it be a complicated process?

I surfed on the Internet, and found many people talking about how to transfer ePub eBooks to iPad, iPhone or iPod. It is quite easy for us to read ePub on iPad via the free iBook application that announced in conjunction with iPad, Besides, with the launch of iOS 4.0 on June 21, 2010, iPhone 4, iPhone 3GS, iPhone 3G and the second and third iPod Touch users can also read ePub via iBook application by updating the OS to iOS 4.

There are many ways to transfer PDF to iPhone and iPod Touch. You can share your ePub over your local WiFi network, uploding them to the Internet, and transferring them over via USB. But today, I just want to share a most commonly used method to transfer your ePub eBooks to your iPhone or iPod, that's transfer your ePub eBooks to iPhone, iPod, iPad with iOS via iTunes.

Step 0: Download Mac PDF to EPUB program, install and run it on Mac OS X.

Step 1: Load PDF document to the converter

Click "Add Files", then locate and select your PDF, PDF to EPUB Converter Mac allows you to add multiple PDF files to convert each time.

Step 2: Customize output settings

1. Click on the gear icon on the selected PDF file in the panel, then you are allowed to customize page range for the PDF files to convert. Default page range for conversion is All pages. 2. Select the folder you want to save all of your ePub files in.

Step 3: Choose converting mode

There are 2 options for you to customize the output files: â€œText and images to ePubâ€• (Keep Original, Ignore Images or Ignore Hyperlinks) and "Each pages as image to ePub"

Step 4: Start the conversion from PDF to ePub

After customizing the output settings, click Convert button to convert PDF to ePub.

Now you have converted your PDF files to EPUB eBooks, you can easily sync the ePub eBooks with iPad right away! Feel free to download the PDF to EPUB Converter mac and have an try yourself.

Once the installation is finished, it will prompt to run the converter. Or you may run the converter from the short-cut on Desktop.

The software is effortless. No programming is required. You simply choose the features you want to

include and click convert. PDF to epub converter mac has a lot and lot of features and all these features have been made very user friendly, there is nothing like that you need a technician or any class to understand it. Its go step by step and its very comfortable throughout from your PDF to epub publication.
