Sable Hunting is Ideal for Thrill Seekers by [Angie Turner](#)

Article published on June 12th 2012 | [Sports](#)

A lot of enthusiasts of sable hunting have a great penchant for thrills and excitement. At the same time, there are some who feel this is the best alternative available when it comes to finding a way to kill boredom.

There is another category of sable hunting fans that are actually research scholars. Going on a hunting expedition gives them an ideal opportunity to study sable's behavior from a close angle. Likewise, it facilitates these researchers to study varied dimensions of the calls they make. The knowledge they derive regarding the animal's behavior patterns enables them to route their valuable findings to various wildlife agencies.

People familiar with sable hunting in Texas say there are some peculiar features. For instance, it usually displays a shiny black coat for males and dark reddish brown for females. Their bodily features make them appear the most majestic type of all antelope species. This is one reason why hunters are advised to use appropriate equipment. Taking a course in this matter will enable you to get all the vital information of suitability of weapon in hunting these sables.

Remember " these sables are well known for their combative mind-set. Finding them kneeling and sweeping their powerful sharp horns is a common thing to see during the sable hunting in Texas. It may be noted, when wounded, these animals do not mind to charge with total aggression. Experts of this field vehemently agree that selection of the timing to hunt them plays a dominant role in determining the outcome of the kill. Late afternoons and early mornings are the best time to hunt them down. For, these are the times of the day when they are mostly busy grazing. Previous experiences have shown that hunting the sable bull is relatively easy because it mostly prefers to stay aloof. Because they are well known for their aggressive behavior, it is suggested that you maintain safe distances from it while hunting.
