Roger James Hamilton and the Emergence of the Real Human Being by [Corwin Smith](#)

Article published on February 1st 2012 | [Success](#)

That has been the story of the life of many of the people in the world. One man decides that there has to be a dramatic change that needs to be brought about in the system, no matter which domain the system is ruling and then arises the cry of the experts of that system that the man shouting at the top of his voice is nothing more than a scam or a maverick whose solutions would give rise to only more troubles to the people who are heavily dependent on the system. The domain being talked about here is that of the wealth creation and the man who has challenged the very authenticity of the system is none other than Roger James Hamilton.

The problem with the present day system of wealth creation is that it is producing more number of people who are dissatisfied with the results that they are getting from the efforts that they are making while operating within the system. And every kind of solutions are being put forward by the experts that are trying their level best to make the present system of economics as robust as possible. But according to this genius of a man named Roger James Hamilton no matter whatever the patch ups are made in the present system, they would only work for a time being and at most for the entire lifecycle of the money rotation in the coffers of the individual or the nation states that are operating well within the system.

And only Roger James Hamilton knows the answer to the query of millions of people as to how they can succeed in the efforts that they are putting in to create wealth for themselves. And the answer according to Roger is that as long as the Nature is not given the due importance in the craft of wealth creation, the system would keep on jumping from one problem to another.

And Roger James Hamilton answers that before trying to embark upon the journey of wealth creation it is imperative that the individual really travels within and discovers the real human being that is hidden beneath the layers of countenances that he is wearing. And one thing that really matters the most is that the individual works strictly by the rules of the game as prescribed by Roger. And once you have done that rest assured that all your dreams would be realized.
